

# the Inn at Lathones

*Scotland's perfect location for  
small exclusive weddings*

## Your special day and that special song!

You can now book your reception or even wedding in the UK's best small music venue (winner 2009).

### Why choose the Inn?

- We don't package weddings; we look after you and your wishes as we look after world famous musicians, golfers and celebrities. To us you are just as important and so is your day
- We create your wedding programme to ensure that your day is just how you imagined it would be.
- We assign one person to look after you from the first meeting to the day itself.
- We work to create the ideal day within your budget. Your imagination becomes our creativity

### The Venue

Last year the Inn at Lathones became home to the R.A.T.S (famously known as "Rocking at the Stables"). The venue plays host to world famous musicians and is renowned for these musicians playing to an audience of just 50 people.

A huge amount of couples have a song that has become special to them - well the reality is that that song writer or band have probably played the R.A.T.S. A unique history of these musicians adorns the walls of the venue and is part of the largest private collection of music memorabilia in the UK today. This has been catalogued to enable us to share the stories with you.

This venue is now being made available for special wedding, anniversary and special parties.

The Inn itself has become well known for its award winning food, 2 rosettes for 14 years along with the high levels of quality and service. The Inn is still the highest graded Inn in Scotland and has just been awarded the "gold award" for its service.

**We know how to make things special so let us help you with your special day.**
